

**DGC**  
DE GOEY CONTRACTORS

***De Goey Contractors (DGC) provides clients with the highest quality piping, steel fabrication and installation services.***

We pride ourselves on delivering excellence with our products and services while upholding A-class quality and safety assurances.

### ***Top Quality Service***

DGC is committed to meeting all contractual, statutory and regulatory obligations and requirements for safety, service, quality and reliability in its manufacture and installation of steel structure and piping systems. We operate a quality system based on the requirements of AS/NZS ISO 9001.

### ***Training and Certification***

DGC is operated by fully certified staff, trained by Weld Australia (formerly the Welding Technology Institute of Australia or WTIA), including:

- ✓ Certified International Welding Inspector
- ✓ Certified International Welding Specialist
- ✓ WTIA QC Welding Coordinator
- ✓ Certified AS1796 Pressure Vessels Welding Supervisor
- ✓ Certified AS2214 Structural Steel Welding Supervisor

Subcontractors engaged by DGC are also accredited to the same stringent standards.

### ***Safety First***

DGC has robust training and safety awareness and promotes a Zero Harm policy. Our HSE Safety Manager has extensive knowledge about the industry and operates an in-depth safety and health management system to safeguard our people and operations.

### ***Capabilities***

DGC is highly experienced in delivering top-quality steel fabrication, piping production and installation. We can tailor our service to suit any project, big or small.

Our Paget-based facilities are fully equipped to manufacture all components/structures in all grades of carbon steel, aluminium and stainless steel, prior to onsite installation.

## What We Offer

- ✓ Certified welding inspection
- ✓ Structural steel
- ✓ Poly pipe welding and installation
- ✓ Roll groove piping
- ✓ Threaded piping
- ✓ Stainless steel press-fit piping
- ✓ High pressure piping stainless and mild steel
- ✓ Stainless pipe welding GTAW MMAW methods
- ✓ Drainage and water main piping
- ✓ General aluminium welding
- ✓ General stainless pipe and structural welding
- ✓ Installation of belt wash and belt scrapper systems
- ✓ Spooling and installation poly/stainless slurry lines
- ✓ Installation of stainless steel and poly utility water and air piping
- ✓ Installation and piping of tank and sump systems
- ✓ Installation of fire suppression systems
- ✓ Spooling of welded stainless steel and carbon steel piping
- ✓ Installation of S/S Victaulic press fit piping and components
- ✓ Fabrication and welding of light structural steel
- ✓ Conveyor guarding fabrication and installation
- ✓ Denso SeaShield Marine Systems
- ✓ Quality assurance documentation
- ✓ Testing and commissioning
- ✓ Labour hire

**The partnership between De Goey Contractors and Mackay Piping allows us to provide a highly qualified and experienced service to our clients.**

### Welding Procedures

De Goey Contractors follows strict welding procedures to ensure quality results.

Welding procedures held and practiced include:

- ✓ AS/NZ3992: ASMEIX GTAW carbon/stainless steel small and large bore
- ✓ AS/NZ3992: ASMEIX GTAW/MMAW carbon/stainless steel large bore
- ✓ AS/NZ3992: ASMEIX GTAW/FCAW carbon/stainless steel large bore
- ✓ AS/NZ3992: ASMEIX GMAW/FCAW carbon/stainless steel large bore
- ✓ AS/NZ1554.1: FCAW carbon steel plate (various thicknesses)
- ✓ AS/NZ1554.1: GMAW carbon steel plate (various thicknesses)

## TIMELINE

**2006**

DGC started in 2006 after successfully securing ongoing contract work in the coal industry sector.

**2011**

DGC move into their first workshop in Paget. A fully equipped workspace to manufacture all components prior to onsite installation.

**2015**

DGC and Mackay Piping move into a larger 4000m2 combined premises to enable wider service to Queensland, and projects Australia - wide.

**2014**

Mackay Piping is established, specialising in custom piping and enabling DGC to offer full service engineering, piping and fabrication project management.

**2019**

**2020**

DGC expands into their second premises and DGC Protective Coatings Division is established to offer blast and paint services on and off site.

A partnership is formed with Valmar Engineering to offer a highly qualified specialist service to the sugar production sector.
